

## DETROIT RAILWAY WILL INCREASE ITS FARES NEXT MONTH

### Increased Wages and Power Cost Given as Cause

(By the Associated Press)  
DETROIT, Mich., Aug. 21.—Increased wages amounting to \$600,000 a year granted platform men in the employ of the Detroit Department of Street Railways, increased power costs and contemplated wage increases for other employees will wipe out the net profit of \$1,000,000 made by the municipally-owned street car lines for the fiscal year ending July 1, 1923. Ross Schram, assistant general manager of the line said today in announcing the increase rates for street car fares. The fares will be increased Sept. 2 from 5 to 6 cents with one cent for transfers. Nine tickets will be sold for 50 cents under the new plan.

It is estimated that approximately \$2,000,000 will be derived annually from the fare increase. This amount, according to Mr. Schram will be sufficient to meet the increased payroll for platform men, pay approximately \$200,000 wage increases for other employees, take care of power costs and leave a balance which can be applied to the extension of the lines.

The increase in fare is effective on all street car lines within the city of Detroit. All of the lines are municipally-owned and the Detroit United Railway Inter-urban cars which run into the city over the municipal lines are permitted to charge the same rate of fare within the city limits as that charged by the Detroit street railways.

## FORMER VERMONT RESIDENTS WILL ORGANIZE CLUBS

### Coolidge for President Clubs to Be Started Soon

(By the Associated Press)  
GRAFTON, Vermont, Aug. 21.—Approximately 150,000 former residents of Vermont now voting in 47 other states are actively supporting a national movement to organize and enlarge Coolidge for President Clubs. John Barrett, former director of the Pan-American Union, announced today on his return home from Washington and New York. In a formal statement Mr. Barrett who conferred with President Coolidge regarding Pan-American affairs while in Washington, said he had been invited in New York yesterday to direct the movement but he feared other duties would prevent him from taking the chairmanship of a provisional committee that had already been formed.

Mr. Barrett's statement followed one issued recently by Senator Moses of New Hampshire in which he asserted that Mr. Coolidge would be a candidate for 1924 and that he had received the solid support of New England.

Mr. Barrett said, "We have already heard from prominent and influential men, most of them leaders in agricultural, industrial and educational activities residing in such distant states as California, Oregon, Washington, Idaho, Both Dakotas, Minnesota, Iowa, Nebraska, Kansas, Illinois and Florida urging a national movement of Coolidge clubs."

## SPAIN TO BEGIN MILITARY OPERATIONS

Madrid, Aug. 21.—It is officially announced that an important military operation will be begun tomorrow in an attempt to relieve the Spanish garrison at Tifariti, Morocco. The garrison has sent out a message declaring that it will die to a man rather than surrender to the Moroccan tribesmen. Strong reinforcements are being sent from Spain.

## TRAINING SHIP GOPHER GOES TO BOTTOM OF RIVER

### Goes Down During Gale Navy Department Reports

(By the Associated Press)  
WASHINGTON, Aug. 21.—The U. S. S. Gopher, a training ship attached to the Ninth Naval Reserve district was sunk today in the Gulf of St. Lawrence during a gale according to a message received by the navy department which said there was no loss of life. The ship went down in 36 fathoms of water, said the message which was sent from Quebec and was signed "signal service."

The telegram to the navy department follows:  
"Following message received from radio station at Grindstone Island—Magellan Island:  
"Following from U. S. S. Wandank 1:10 P. M. U. S. S. Gopher sunk in Gulf of St. Lawrence in northwest gale. Thirty-six fathoms of water. Latitude 46 degrees, 47 minutes north; longitude 62 degrees west. No loss of life."

Not on a Cruise.  
Columbus, O., Aug. 21.—The Ohio Naval Reservists officers here declared tonight that the U. S. S. Gopher was not on a cruise when she sank. She was being towed from Montreal to the Boston Navy Yard, officered and manned by regular navy officers, they said, and no Ohio naval reservists were aboard. The boat was being towed into the yards because she was no longer suitable for salt water cruising since she had not sufficient fresh water tanks.

## RETAIL FOOD PRICES HIGHER THAN WAGES

(By the Associated Press)  
BERLIN, Aug. 21.—Retail food prices in greater Berlin have reached levels above the proportion of the wage scales agreed upon last week causing added suffering among the poorer classes. The municipality has appealed to the federal government for subsidies to enable it to keep the street car lines and power and gas plants in operation as the city treasurer is unable to meet the mounting prices of German coal.

## RIDES TO WORK IN AUTO; IS DISCHARGED

Detroit, Aug. 21.—Because she came to work in an automobile one of the car women at the municipal courts building has been discharged. J. A. Martin, commissioner of public works and custodian of public buildings informed the common council here last night. He said it was the policy of his department to give cleaning work to needy women.

## MEMBERS OF LUTHERANS GIVE LARGE AMOUNT

Eisenach, Germany, Aug. 21.—American Lutherans have contributed more than \$2,000,000 and 400 tons of clothing to Europe since 1918, Dr. J. A. Moeschel informed the delegates to the first World convention of Lutherans today. To assist Lutherans in more than twenty countries, he added, the relief work inaugurated before the armistice is still going on.

## JAPANESE SUB SINKS AT KOBE 85 OF CREW LOST

### Newest Vessel Had Just Returned from Trial Trip

(By the Associated Press)  
TOKYO, Aug. 21.—The newest Japanese submarine just returned from a short trial trip, sank this morning at the Kawasaki docks at Kobe and eighty-five members of her crew missing, are believed to have lost their lives. The captain, chief officer, five dock-yard engineers and four other naval officers were saved.

The cause of the accident has not been determined. Submarine Engineer Yanagawa, who was aboard the undersea vessel as a representative of the builders, was among those saved. He said the submarine had completed her trial trip and come to the surface, when listing heavily, she started to sink. The captain ordered all the openings closed. Before his orders could be carried out, however, the water rushed in and the vessel sank.

## BELIEVE TROUBLE IS NOW OVER AT HILLSBORO PLANT

### Moving of the Troops Was Commenced Yesterday

(By the Associated Press)  
HILLSBORO, Ill., Aug. 21.—Belief was expressed tonight that there would be no further disorder at the American zinc company's plant at Taylor Springs, Ill., near here, by Col. L. A. Culbertson of the 130th infantry, Illinois National Guard, who is in charge of the troops guarding the plant as a result of strike trouble.

Colonel Culbertson said he would depart tomorrow morning leaving the situation in charge of Major H. W. Stiles of Springfield. Three of the ten military companies sent here were on their way home today.

Federal Judge George T. Page granted a temporary injunction ending the hearing on the final restraining order. Inasmuch as breweries must brew real beer which must be de-alcoholized before it can be shipped as near beer, the breweries are practically put out of business by the temporary order.

## TWO BREWERIES WERE CLOSED BY FEDERAL COURT

### Alleged That They Violated the Prohibition Act

(By the Associated Press)  
CHICAGO, Aug. 21.—Suit was filed in the United States district court today to close the plant of the White Eagle Brewing company of Chicago and the Elgin, Ill., for one year under the abatement of a nuisance clause in the national prohibition act.

Federal Judge George T. Page granted a temporary injunction ending the hearing on the final restraining order. Inasmuch as breweries must brew real beer which must be de-alcoholized before it can be shipped as near beer, the breweries are practically put out of business by the temporary order.

Mrs. Emmott formerly played in the companies of Julia Marlowe, E. H. Sothern and James K. Hackett and was in later years a college teacher. Wilson Irvine, painter, is a brother.

## Government Will See There Is No Shortage

(By the Associated Press)

WASHINGTON, Aug. 21.—Failure of the anthracite operators and miners to reach an agreement at their Atlantic City conference will not be permitted to inflict a fuel shortage on the consumer, it was declared tonight at the white house. While no indication of the administration program was given, it was announced that President Coolidge wished to assure the public that normal requirements for fuel would be met.

Chairman Hammond of the coal commission who discussed the anthracite situation late in the day with the president said, however, an attempt would be made to fix responsibility for the failure of the late negotiations and it was indicated that the commission's findings in this particular might be incorporated in an "emergency report" to Mr. Coolidge which is now in preparation.

Mr. Hammond declared the commission did not consider the situation yet warranted the submission of this report. He denied, however, that either he or his associates proposed to take the initiative at this time in endeavoring to obtain a resumption of negotiations between the operators and their employees.

Immediately upon receipt of

information that the Atlantic conference had broken up over the question of increased wages Mr. Hammond went to the white house for a conference with the president. Upon leaving the executive offices he called an immediate meeting of the coal commission and after it had been in session less than an hour a recess was taken to enable Mr. Hammond and Commissioner Nell to confer further with President Coolidge.

The only public statement resulting from this second interview was the authorized announcement that regardless of the outcome of the anthracite controversy, the fuel necessities of the public would be met.

Officials who have followed the anthracite crisis closely expressed the opinion tonight that the president would not interfere until the operators and miners had been given an opportunity with a proposal which might serve as a compromise upon which negotiations could be resumed. In the absence of any such move, it was said the president might confine himself to a publication of the findings of the coal commission as to the responsibility for the deadlock in the belief that public opinion might prove effective in bringing about an adjustment.

## MEMBERS OF EGAN GANG ARE MOVED TO PEORIA JAIL

### Are Being Held for Mail Robbery Last Spring

(By the Associated Press)  
BLOOMINGTON, Ill., Aug. 21.—Three members of the notorious "Egan's Rats" of St. Louis who were sent here for custody when arrested following the daring mail robbery at Springfield Easter Sunday, failed in an attempt to break out of the McLean county jail here. They were taken to Peoria today to be held in the county jail for mail robbery last spring.

The three, Joe Bouman, Frank Stagner and Morris "Red" Rudinsky, sang religious songs to drown the noise of digging thru the stone wall on the third floor. Two bushel baskets of stone had been hewn out, when the sheriff was attracted by the singing. The prisoners were working with a piece of iron wrapped in cloth. Rudinsky has twice escaped from prison, once from the federal prison at Leavenworth, Kansas.

## MAIL PLANES MEET AT OMAHA, NEBRASKA

(By the Associated Press)

CHICAGO, Aug. 21.—The east bound and west bound mail planes in the 28 hour trans-continent flight passed each other between Omaha, Nebraska, and Cheyenne, Wyoming, shortly after 12 o'clock midnight, Central Standard time. Pilot Frank Yeager in the east-bound plane which left Cheyenne at 9:35 P. M., Central Standard time, without waiting for the plane piloted by H. A. Collison which was forced down at Laramie, Wyo., carried only local mail from Cheyenne to Omaha.

The westbound plane, piloted by Jack Knight was running ahead of schedule after leaving Omaha at 11:08 P. M., Central time, 37 minutes ahead of the time fixed for its departure. Collison, after making his third unsuccessful attempt to fly from Laramie to Cheyenne, returned to Laramie tonight at 11:10 o'clock, Mountain time, after remaining in the air for 50 minutes.

## KENDALL SAYS HE WILL NOT RESIGN

(By the Associated Press)  
DES MOINES, Iowa, Aug. 21.—Governor N. E. Kendall of Iowa, issued a statement tonight denying reports that he was going to resign because of ill health. The governor declared the statement is devoid of any foundation whatever. He says that he has been ill for several months and that his physicians have ordered him to take a complete rest.

"I am going on an extended vacation but I hope to return in renewed health and complete my term of service," he declared.

## WEALTHY MAN SUED FOR DIVORCE

Elgin, Ill., Aug. 21.—Patrick Leonard, wealthy resident of Crystal Lake, summer resort city, and formerly the owner of Leonard's hotel on the lake front, was named defendant in a suit for divorce filed by his wife, Mrs. Helen Leonard, in the circuit court at Woodstock yesterday. The bill states they were married in Chicago, June 15, 1910. There is one son, Ralph, 12 years old.

## GENERAL SEARCH BEING MADE FOR KIDNAPED CHILD

### Detectives and Taxi Drivers Hunt for Lillian McKenzie

(By the Associated Press)  
NEW YORK, Aug. 21.—One hundred and sixty five New York detectives, hundreds of taxi-cab drivers and thousands of interested citizens tonight had searched in vain for Lillian McKenzie, 3 months old, kidnapped from her home in Jersey City, N. J., in a West 18th street store Saturday. Not only was every available detective pressed into service but sixty five students from the detective school conducted by the department were assigned to the search.

Meanwhile this search spread across the Hudson where Sergeant Johnson of the Central New Jersey railroad police force reported having seen a woman carrying a baby in her arms get off a Newark train at Jersey City and walk away with the infant late Sunday night. Johnson said that the lateness of the hour and the fact that the woman showed no familiarity with children and carried the infant under her arm like a package combined to arouse his suspicions. No trace of this woman has been found.

Desperate, the mother left her home this morning on a lone hunt thru the streets for her child. Relatives traced her wanderings and brought her home. There she fell into a semi-coma.

## PREMIER'S REPLY TO BRITISH NOTE DELIVERED TUESDAY

### Copies Were Sent to Officials Who Are Away on Vacation

(By the Associated Press)  
LONDON, Aug. 21.—Premier Poincare's reply to the British note was delivered at 10 o'clock tonight to the foreign office. Late tonight copies were distributed to Prime Minister Baldwin and the other ministers who are on their vacations. A copy was sent direct to Foreign Secretary Marquis Curzon at Bagnolles, France, where he is vacationing.

Nothing was issued here indicating the nature of the reply but this has to a great extent become public property thru the forecasts published in Paris and the fact that Premier Baldwin had made no sign of changing his holiday plans seems to prove that little hope is entertained that the French rejoinder will lead to anything but a continuance of the already protracted negotiations.

## TWO KILLED WHEN CAR TURNS TURTLE

(By the Associated Press)  
JONESBURG, Mo., Aug. 21.—Mrs. Leslie Orear and her young daughter, Grace of Chicago were killed and three other persons injured when an automobile in which they were riding turned over near here this afternoon. The injured are Leslie Orear, Mrs. W. Tyler Fray and her small son of East St. Louis, Ill.

## STEAL WEDDING OUTFIT; GETS MARRIED ANYWAY

Chicago, Aug. 21.—His wedding clothes, ring and \$25 were stolen on the eve of his marriage to Miss Lillian Ellasser, of Beatrice, Neb., but John Schroeder borrowed money from his landlady, telegraphed the young woman to come to Chicago and the marriage took place as scheduled. It was learned today when Samuel Castle and Frank Kittelson were brought back by the police from Vandalla, Ill.

The men roomed in the same house with Schroeder who had asked Castle to telegraph \$25 to his fiancée. Castle and Kittelson were arrested in Vandalla when they drove into that city without lights on an automobile which they are charged with having stolen in Chicago.

The prisoners, the wedding suit and the ring arrived here last night while the bride and groom were at South Haven, Mich., on their honeymoon.

## IS RELEASED ON BOND OF \$3,000

Harrisburg, Ill., Aug. 21.—Mrs. Pat Neal who ran down Mrs. John McGuire with her automobile yesterday at Eldorado and was arrested on a charge to commit murder, because of an alleged grievance against Mrs. McGuire was released today on bond of \$3,000. Mrs. McGuire was reported improved today. She was crossing a street when run down by Mrs. Neal's machine and suffered fractures of three ribs, other injuries and from shock.

## STILL EVADES

Grover Cleveland Bergdoll, slacker, will be urged by his mother to return from Germany to serve out his military sentence for evading the draft. Recently an alleged attempt to spirit him into France ended by Bergdoll killing one man, and assisting in capture of two others, who now are held prisoners.

## FINAL COUNT IN DEATH ROLL OF FIRE ONLY TWO

### Others Who Were Missing Turn Up in Hospitals

(By the Associated Press)  
NEW YORK, Aug. 21.—The yellow-brick walls of a Brooklyn dance hall half a century old which fell last night killed two firemen and injured 47 more in a fire which broke out shortly after midnight and burned well into the day.

Half a hundred men were caught under the rain of masonry and for several hours it was believed ten had perished. But eight of the missing turned up in hospitals and the final death count unless some of the injured should succumb stood at two.

The fire starting from a cause not yet officially determined broke out in the basement of the New Plaza Hall a Brooklyn landmark that had been the scene of many political battles. But by 2 o'clock the flames were brought under control and the crowd began to depart. Then, without the slightest warning, beams cracked and one wall of the building extending an entire block crumpled. It hurled to the street several firemen who were on the roof.

Other firemen on the sidewalk were showered with bricks. Raymond Farrell and James Sullivan, members of the same engine company were killed.

## MRS. FORD REBUKED WEARERS OF KNICKERS

(By the Associated Press)  
MARQUETTE, Mich., Aug. 21.—Mrs. Henry Ford, publicly rebuked a number of women and girls wearing overalls and short stockings—the costume of the city resorters in the upper peninsula—when they besieged her at Michigamme, a resort town near here yesterday, with requests for her autograph.

The Ford-Eld is on Firestone party had just arrived from Iron Mountain and had pitched their tents when the feminine resorters surrounded the party and requested autographs.

"You ladies and girls are showing very poor taste and worse judgment in coming into the town garbed as you are without skirts or dresses," Mrs. Ford said. "I do not want to sign my name for you and prefer not to look at you. I resent your ideas of dress."

## BANKER DIES AT PARIS, ILLINOIS

(By the Associated Press)  
PARIS, Ill., Aug. 21.—George W. Meyers, a wealthy farmer and president of two banks died today at his home. He had filled several county offices and was chairman of the Democratic Central committee. He was a member of the Illinois legislature when the Lorimer case was pending.

Halk received severe injuries and may die.

## ANTHRACITE COAL NEGOTIATIONS END ABRUPTLY TUESDAY

### President Lewis Gives Out Statement for Miners

(By the Associated Press)  
ATLANTIC CITY, N. J., Aug. 21.—Negotiations for a new wage contract in the anthracite industry ended abruptly today, leaving unrelieved the prospect of a suspension of hard coal mining Sept. 1.

Miners' union officials, who walked out of the joint meetings said the efforts toward a peaceful adjustment of the conflict on the part of the industry itself had terminated because the operators were unwilling to concede any part of the demand for the increased wages made by the men. The operators asserted that the breaking point was the unwillingness of the union to submit its demands to the test of arbitration. Both sides, however, assented to the submission of a report on the situation to the United States coal commission thru James A. Gorman, secretary of the joint conference.

Neither group looked for any prevention of a protracted industrial struggle in the anthracite region after September 1 by any other means than government intervention, though S. D. Warriner, chairman of the operators' policy committee declared he never lost hope for peace.

John L. Lewis, president of the United Mine Workers made no attempt to gloss the prospect as he gave out a brief summary of what had preceded the sudden conclusion of the wage conference which began Monday.

"Time for mining words has gone by," he said. "The mine workers are prepared to enter an industrial contest Sept. 1 and to administer to the operators the most complete trouncing of their career. Since the anthracite operators intend never to concede or compromise on any point of working conditions or wage matters except after a defeat in fight, our people go into it fight."

## Look for No Help

"We make no request to the coal commission. We look for no help from any agency, governmental or otherwise. Our people have tried out arbitration, we never get the offer to have issues settled by it unless we are strong enough to win without it, but the mine workers have always found reason for dissatisfaction with arbitration awards in the past."

"Today Mr. Warriner told us that the operators would not and could not grant any wage increase Sept. 1. There isn't any purpose in further negotiation after that. We feel that the exorbitant and unwarranted profits now taken in the industry would allow wage increases without any increase in the cost of coal to the consumer. But regardless of that, suspension of anthracite coal production will automatically ensue in the anthracite region on the morning of Sept. 1."

Mr. Lewis remarked that the union's willingness to let the mines continue operation had been covered in a proposal made to the government agency in New York last week. It hinged on the agreement of the operators to install the "checkoff" system of collecting union dues to accept the conclusion that a wage increase was necessary and to abolish any other than eight hour day employment. That was the limit of concession the mine workers could make he insisted adding that "neither the coal commission nor the operators have paid any attention to the proposal."

Warriner Has Different Story  
Mr. Warriner after the break-up, gave a slightly different account of the day's proceedings, insisting that the split was simply and solely on the question of arbitration. As a last move in the joint session, he said, the operators had renewed the offer to arbitrate every point in dispute to keep the mines running, and to make wage advances retroactive in case they were awarded later than Sept. 1.

"Mr. Lewis told us further negotiations will be futile," he declared. "Yet what more, in the name of reason, can employers offer in order to avert a contest?"

Mr. Warriner said the operators considered the existing wage scale in the industry to be more than adequate but had offered to extend it to March 31, 1925, or to submit the question of an increase to arbitration on the understanding that President Coolidge would be asked to name the arbitration board if the miners and their employers could not mutually agree upon a group.

FOURTH CHANCE FOR SWIM  
Dover, Aug. 21.—Owing to a rough sea, Charles Toth of Boston today again postponed his attempt to swim the English channel.

Romeo Maciel, Argentine swimmer, who was recently taken ill has recovered sufficiently to leave the hospital.

VARIED PROGRAM AT CHAUTAUQUA TENT

Hawaiians Gave Concert Numbers Following An Illustrated Address on Electricity.

There were two popular attractions on the chautauqua program Tuesday night. Louis Williams presented some of his "wonders of electricity" and Vierra's Hawaiians gave a musical program. The same troupe

had appeared in the afternoon but a more extended program was given at night. The concert was accounted one of the most popular attractions of the chautauqua thus far.

The program was not limited to Hawaiian music and the selections were varied, some popular and some classical, so that the tastes of all the auditors were taken into account. An informal little talk about Hawaii given by Mrs. Vierra added to the pleasure of the program.

Mr. Williams gave a practical

demonstration of the chief chemical elements and of the phenomena of physics. Numerous illustrations were made in the chemical line, for instance, how to detect the presence of well damp and how to dispose of it, rendering the gas so heavy that it may be drawn out in buckets. Mr. Williams also demonstrated the deadliness of carbon dioxide. In the line of physics there were also some interesting illustrations. He sent enough electricity thru the bodies of two boys to kill ten men if sent in a different manner. Each boy took hold of a handle and also held a wire connected with an electric light. The electric current was sent thru the bodies of the boys and lighted the electric bulb.

IN OCCUPATION OF TURKEY

London.—It has cost England 29,115,000 pounds sterling for the occupation of Constantinople and the adjacent area since the Armistice in 1918, Premier Baldwin told the House of Commons recently.

These figures, he added, did not represent the extra cost to the taxpayer of the occupation, since the greater part of the occupying forces would otherwise have been employed elsewhere. The extra cost was estimated at 16,000,000 pounds sterling. The Premier further stated that the allied governments have decided to forgo any claim against Turkey for the cost of occupation of Turkish territory.

CHAUTAUQUA AT WINCHESTER OPENS

First Day's Program Pleases Large Audiences—Other News from Winchester.

Winchester, Aug. 21.—The five day chautauqua program opened Tuesday, with the L. Verne Slout Players as the chief attraction. This company of high class entertainers gave two very excellent comedies, one in the afternoon and one in the night. There were large audiences present on both occasions and the plays were exceedingly well received.

Tomorrow the Chicago symphony orchestra will give concerts afternoon and evening, and Joe R. Hanley will deliver an address in the afternoon and again in the evening. The chautauqua opens very auspiciously this season.

Thru error the names of two step daughters were omitted from a recent account of the death of the late Thomas Stringer. The surviving step-daughters of the venerable Morgan county man are Mrs. Ellen Whewell of Lynnville and Mrs. Elizabeth Hodges of Archie, Mo. The names of those who cared for the flowers at the funeral were also unintentionally omitted. They were Misses, Mary Stringer, Mary Lawless and Jennie Peareyhouse.

Edward Patrick and family and Misses Ruth Buckley and Jessie Collins were visitors in Springfield Sunday.

W. H. O'Brien and son Charles of Cord, Ark., were visitors in Winchester Tuesday, en route to Pitts.

John and Leonard and Little Joseph of Chicago are sons of the former's parents, Mr. and Mrs. J. A. Henderson.

Miss Nelson, Prentiss, arrived Tuesday night from Missouri to be the guest of Mrs. Mildred Funk.

Mrs. W. L. Owens left Tuesday morning for Beardstown to visit friends.

Mrs. Helen Jones left Tuesday for Ardenville after a visit with relatives in Bushnell.

CHARGE SELLING DRUGS WITHOUT LICENSE

SPRINGFIELD, Ill., Aug. 21. (By The Associated Press).—Over 100 suits have been filed against merchants in various parts of Illinois charged with selling drugs without a state license, the state department of registration and education announced today. Sale of such drugs and remedies as iodine, camphor, opium salts, turpentine and aspirin by merchants who are not registered pharmacists is prohibited by statute. The suits are directed against retailers, as the law does not prohibit the distribution of these drugs by wholesale houses.

Major Max Murdock of Chicago, assistant director of the department, is in charge of the litigation.

Increased activity along this line has been made possible by the appointment of 10 additional inspectors authorized by the last legislature, giving the department 15 inspectors.

The country store and small town merchant who sell opium salts, camphor or anyone of a number of other forbidden drugs without a druggist's license is soon to feel the campaign being waged by the department, it is said. The law does not apply to patent medicines.

SCIENTISTS CAUTION AGAINST DEADLY GAS Washington.—That hydrogen sulphide, a gas often found in and about industrial plants, is extremely poisonous, although not heretofore recognized as such, is disclosed by the Bureau of Mines after a series of tests on men and animals. The investigation showed that acute poisoning can be produced by low concentrations of this gas and may result in respiratory paralysis followed by heart failure and death.

The gas is sometimes present in mines, railroad tunnels, sewers and marshes, and is found in various stages of the manufacture of sulphuric acid, in the distillation of petroleum, particularly those oils known as high-sulphur crudes, and also about some gas wells, gas plants and smelters. It is colorless and in low concentrations has the odor of rotten eggs. In mines this has given it the term "stink damp."

At the Pittsburgh experimental station of the bureau a large chamber was used for making exposures of men and various animals. The study showed that complete inhalation causes almost immediate unconsciousness, and death follows frequently before rescue can be accomplished.

BROCKHOUSE PICNIC TO BE HELD THURSDAY

Mention has already been made of the annual Brockhouse picnic which is to be held tomorrow August 23, at the W. C. Brockhouse grove four and a half miles northwest of Concord. The preparations made this year indicate that the picnic will be more largely attended than ever before.

Music will be furnished thru-out the day by the Arenzville concert band and at 2:30 there will be a baseball game between Arenzville and Concord. In addition there will be various forms of amusement. Refreshments are to be served during the day by the ladies of St. Paul's Lutheran church. Miss Emma Detmer is the secretary of the arrangement committee.

One Body Reached Was Mangled Beyond Recognition

(By The Associated Press)

SILVER CITY, N. M., Aug. 21.—In a cave-in at the property of the Cooperative Mining company, 15 miles northeast of here six men were trapped. The men were working in a drift at the bottom of a 130 foot shaft when the accident occurred.

A large crew of men working in 15 minute shifts up to this afternoon had reached one body, identified as Peter Jones of Central N. M. The five others have not been reached, and if they escaped, the fall of rock and earth, it is believed they have suffocated.

Jones' body was mangled almost beyond recognition. The names of the other entombed men have not been learned.

COMMITTS SUICIDE TO ESCAPE ARREST

(By The Associated Press)

ROCK ISLAND, Ill., Aug. 21.—While being pursued by a posse of police officers after he had attempted to kill his rival and the young woman whose favor the two men had been seeking, John Anderson, 31, of Warner, Ill., ended his life by jumping in front of a Rock Island Southern train. Anderson was a farm hand.

He had fired five revolver shots at Archie Chambers 24, of Joliet, Illinois, and Miss Viola Wilson, 22 of Rock Island as the two were driving away from the young woman's home in an automobile. The automobile was damaged by the bullets but neither of the occupants was hit. Anderson had threatened Miss Wilson with death if he ever saw her with another man, she said.

AMERICAN LEGION IN BUSINESS SESSION

The local American Legion post held a regular business session last night at the Legion hall. At this time two delegates were elected to the state convention to be held in Danville next month. Elmer Henderson and Homer G. Bradney were the delegates chosen.

The resignation of Col. O. C. Smith as chairman of the post activities committee was handed in, Col. Smith taking this action because of pressing duties in connection with the Spanish War Veterans organization, of which he is state commander.

Various other matters of business were given attention at this meeting, which was quite largely attended.

GROCER THANKFUL

"I had been sick nearly 20 years with stomach trouble and was slowly starving to death as everything I ate caused terrible gas and pain and my food did not digest. I was reduced to 115 pounds. A friend advised me to take Mayr's Wonderful Remedy about four months ago, which I did and now weigh 151 lbs. and can eat anything. I am very thankful for Mayr's Wonderful Remedy. It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at all druggists.—Adv.

## AGED RESIDENT OF COUNTY PASSES ON

**Mrs. Nancy Wilson Dies Monday Night Near Waverly—Funeral to be Held at Ebenezer Thursday Afternoon.**

Mrs. Nancy N. Wilson for most of her life a resident of Morgan county, died Monday evening at the home of her daughter, Mrs. Sarah M. Bacon, west of Waverly after an illness of several months. She was 89 years of age and had been a resident of this county since childhood, having been brought here by her parents from Kentucky.

Nancy N. Williamson was born Feb. 8, 1834, the daughter of William and Isabel Williamson. After moving from Kentucky the family settled in the Ebenezer neighborhood, and here she resided most of her life.

On Jan. 17, 1856, she was united in marriage to Luther M. Wilson, who preceded her in death many years ago. She is survived by two children, Mrs. Sarah M. Bacon of Waverly and Lewis N. Wilson of this city.

Funeral services will be held at 2 o'clock Thursday afternoon in Ebenezer church, where Mrs. Wilson was a consistent member for more than fifty years. Interment will take place in Ebenezer cemetery.

### HAROLD BELL WRIGHT WRITES A NEW NOVEL

A new novel by Harold Bell Wright, called, "The Mine With the Iron Door," has just been published. This is probably the most important news item in the book world this year. For each book by Mr. Wright has an audience waiting for it, larger by many hundreds of thousands than that for any other writer in America.

It has been two years since Mr. Wright's industrial story, "Helen of the Old House," and during all that time he has been busily engaged upon "The Mine With the Iron Door." The new story is an exciting adventure romance of the Arizona mountains, its scenes laid in what might be termed Wright's own country, for the novelist has for several years lived near Tucson, Arizona. It is not far from the Wright home to the Canade Del Oro, or Canon of Gold, where most of the action in "The Mine With the Iron Door" occurs.

There is a tale current in this section about a fabulously rich gold mine called The Mine With the Iron Door, which has been secretly guarded by the Indians for centuries and which has been sought without avail by white men since the days of the old Spanish Conquistadores. Wright has taken this fable as the background for his story and about it has written a strictly modern adventure romance with thrills on almost every page.

One person out of every hundred in this country is said to buy each Wright novel and one out of every twenty is said to read his stories. When one considers that this figure is based on the total population which includes babies and young children and the vast foreign born and illiterate population, it will be readily seen that practically every person in the country who is old enough and intelligent enough to read a book.

Richard Oxley of Durbin was a visitor in Jacksonville yesterday.

## FINDS FLAWS IN THE STATE SCHOOL SYSTEM

**Chicago Woman Declares There Are Too Many Teachers Without Proper Preparation—One Room School House Should Be Abolished**

"Illinois, the state that is third in population, third in industry and third in agriculture, is twenty-second in education," said Mrs. W. W. Ramsey of Chicago when addressing an audience of women at the chautauqua yesterday morning. Yesterday's address was the second of a series of three to be given by the lady. The text will be given this morning.

"In Illinois today there are 1,500 teachers actively engaged in their profession who have not had a day of school after the eighth grade. Education has come to be recognized as a science, especially in the early grades. If the child is given proper instruction and is taught the rudiments of knowledge he will profit his whole life. If the instruction through his first few years of school is of a low caliber he will suffer in his later educational career. All of these poorly educated teachers are teaching these lower grades which are so important.

"The one-room schoolhouse is another evil that should be abolished. Schools should be centralized so that there will be a teacher for each grade, a specialist in teaching children of the year in her grade. One teacher cannot be expected to teach every grade from the primary to the eighth every day and do a successful bit of work."

R. C. Taylor and sons, Robert and Henry, of Virginia, attended the chautauqua here Tuesday.

FAITH IS GREAT  
ANTIDOTE FOR GLOOM

W. R. Bennett Gave Optimistic Address from Chautauqua Platform—Declared Farmers' Day Will Come Again

"The Man Who Can," was the topic of a very inspiring address delivered yesterday afternoon at the chautauqua by William Rainey Bennett, one of the most forceful speakers that has appeared on that platform this year and an orator of 15 years chautauqua experience.

Mr. Bennett's address was an explanation of constructive optimism. He held that the "day by day Coue stuff" would not get a man anywhere; that to be a constructive optimist a man must get faith in his brother man, in God and in the universe, and last but not least in himself. Then he must forge ahead working with might and main, playing the game square, and not stopping until he meets the grave.

The speaker had his audience with him for every minute, despite the pounding of rain on the tent, and the crowd hung on his every word.

He is a speaker of the Billy Sunday type, illustrating his words with violent action. His sincerity was evident to all. Often he has been called "The Man with the Douglas Fairbanks smile and the Billy Sunday style." He bears a great resemblance to Doug Fairbanks.

**Farmer's Troubles**  
"The farmer is better off now than he has been at anytime since the war," according to Mr. Bennett. "I do not say this because of statistics, I base my words on the fact that at every chautauqua at which I have spoken the farmers have been there and been spending money."

"The trouble with most of the farmers is that they are not getting what's coming to them for playing the fool right after the war and buying land when it was high. Don't think I am trying to rub it in. I am just giving you the straight truth. I own 300 acres of Wisconsin scenery and that's why I am talking from this platform today, to pay the taxes on it and keep a roof on the barn."

**Land Will Come Back**  
"But the day of the great American farmer is coming back. It will come because you farmers will get down to work and try to get yourselves out of the hole, not because Congress does anything. You've got to get out of the habit expecting Congress to coddle you and give you everything you want. Why farmers are not hard up. I was brought up on a farm and when I was 17 years old I went to church barefooted because we hadn't made enough money to buy shoes. The modern farmer is having such a soft time that he is getting flabby. He goes out to the field and sits on a seat and is pulled around by a tractor. When I was younger I used to have to walk behind a plow and help the horse propel it. Why I even know one farmer in Iowa who has built a gymnasium to keep him fit."

"Mind cannot cure all but it can go a long way towards it. Just get faith in yourself and the world, spread a grin on your face and pitch in and work."

**FEDERAL INSPECTOR HERE ON BUSINESS**

PAGEANT PLANS NOW  
FULLY MATURED

Great Interest Shown in Morgan County Centennial Program at The Chautauqua.

Final touches of preparation for the processional pageant at the chautauqua were given yesterday. This important feature of Morgan county's centennial program will be staged this afternoon at 4 o'clock. The various episodes of Morgan county history from 1823 down to the present will be presented with historic correctness.

There are no speaking parts, but the interpretation will be presented by H. H. Bancroft, platform manager. Miss Mary Matthews is directing the pageant. Several scenes will be as follows:

American Indians on the hunting ground, represented by the Red Men and daughter of Pachontas.

1819.  
The First White Family—Kellogg Brothers—family and visitors, represented by the Benevolent and Protective Order of Elks.

1823.  
Morganian Society, represented by the Knights of Pythias.  
Officers of 1823, represented by Present county officers.

1829.  
The Yale Band—By Dean Scott and Illinois College Students.  
Presbyterian Sewing Society and Ladies' Society for Education of Females.

1832.  
Black Hawk War—U. S. A. Army Officer and Chief Black Hawk.

1837.  
Reception by Governor and Mrs. Duncan to Mr. and Mrs. Daniel Webster and their niece. Represented by the Daughter of the American Revolution and the Children of the American Revolution.

1838.  
Mr. Thomas Wilday organized the I. O. O. F. In charge of the local lodges of the I. O. O. F.

1839.  
Organization of the Illinois School for the Blind.  
Organization of the School for the Deaf.

1846.  
Founding of the Illinois Woman's College, represented by the Board of Trustees.

1860.  
Grand Finale—Uncle Sam, Lincoln and Douglas, Yates, Moses and Sheriff Matthews.

"Rally Round the Flag Boys."  
Flag introduced by members of the Illinois National Guard.

"America." Community sing.  
Some Pageant Costumes.  
There will be special interest in a number of costumes worn in the pageant this afternoon. Mrs. Herbert Capps, who is to represent the wife of Governor Duncan, will appear in a gown that was worn by Mrs. Millicent Yates, grandmother of Gov. Yates, Sr., and great grandmother of Congressman Richard Yates.

One of the children of Governor Duncan, Hannah, at the age of ten, wore the little dress which will this afternoon be the costume of Helen Russell.  
Dr. A. L. Adams who will represent Dr. Caldwell, the first physician of Morgan county, will appear with the saddlebags and medicine case that were used originally by Thomas Worthington, grandfather of Mrs. Adams. Mr. Worthington was at one time state senator and was one of the earliest members of the board of trustees of the State School for the Deaf.

**FRANKLIN HOME MAKERS MEET TUESDAY AFTERNOON**

TWO MORE BUSINESS  
LOCATIONS SELECTED

Mattoon Firm and Big Tea Company Lease Rooms in New Cloverleaf Building—Part of Equipment for Second A. and P. Store is Moved Here.

Announcement was made yesterday by officials of the Cloverleaf Casualty Co., of the leasing of the two remaining store rooms in the new building, fronting on East State street. The corner store is of course to be occupied by the Baker Brothers Drug store. The middle room to the east has been leased by the Schenz Optical Co., of Mattoon. This firm has for years done a successful business in that city, but recently sold out its establishment and has been seeking a new location. The firm will engage in the fitting, grinding and manufacture of glasses and will install the most up-to-date machinery for grinding the lenses.

The store room farthest east has been leased by the Atlantic and Pacific Tea Co., whose Boston representatives were in the city sometime ago to close up the deal. This is the second branch of this company to be established in the city, the other being located on South Main street. Already the mammoth refrigerators to be installed in the new store have arrived and have been placed in the building. It was necessary that this be done before the plate glass was placed in the front windows, as they afforded the only apertures large enough to admit the refrigerators. It is the intention of the A. and P. management to get business underway in the new building as soon as possible.

LONG TIME COUNTY  
RESIDENT IS DEAD

Mrs. Margaret Sooy Passed Away at Home in Murrayville—Funeral Services to be Held Thursday Afternoon.

The death of Mrs. Margaret Sooy, widow of the late Hamilton Sooy, occurred at her home in Murrayville Tuesday afternoon at 2:30 o'clock.

She was born on May 4th 1837 and at the time of her death was past 86 years old. In early life she was married as indicated above to Hamilton Sooy, to which union nine children were born, of whom one daughter and five sons still survive. The husband passed away about twenty years ago and one child died in infancy. Two daughters, Mrs. Clara Mutch and Mrs. Martha Fanning also preceded her in death. The children surviving are Frank and Thomas Sooy of Murrayville; George Sooy of Jacksonville; John Sooy of Oklahoma City, Oklahoma; Granville of Nelson, Nebraska and Mrs. Ella Jennings of Murrayville.

Mrs. Sooy has spent most of her life in the vicinity of Murrayville and since the death of her husband has made her home with her son Thomas in her home town. She was a faithful member of the M. E. church of Murrayville and was well known and highly respected in the southern part of the county.

The funeral services will be held Thursday afternoon in the M. E. church at Murrayville at 2:30 o'clock and interment will be made in the Murrayville cemetery.

RETURNS FROM MOTOR

**TOUR THRU NORTH**  
Mr. and Mrs. Ray Hartman have returned from an extensive motor trip in the northern states which took them through the states of Iowa, Minnesota, Wisconsin, and the northern part of Illinois. On their trip they had the pleasure of calling on Mr. and Mrs. Harold K. Green, who were former residents of Jacksonville, but who now reside in Janesville, Wisconsin. They also called on Mr. and Mrs. Arthur Munson of Chicago, also former residents of this city.

They report a very enjoyable trip and good roads as a general rule.

RETURN FROM TRIP TO NORTH

Mr. and Mrs. W. E. Hall and little daughter and Miss Rachel Hall, have returned to Jacksonville after a summer visit at Mendota Lake, Wis. Miss Hall took a special course of study at Wisconsin University earlier in the summer.

Mr. Hall yesterday made reference to the great number of automobile tourists who visit the Wisconsin lake country. One day this summer in Madison there were cars driven by 1800 tourists. Of this number 1,000 carried Illinois licenses.

TRICK SKATER WILL  
DO STUNTS TODAY

Homer L. Holt Will Perform on Streets—Is Doing Advertising for Cigarette Company.

Homer L. Holt, trick skater, with a pair of legs that according to report are insured with the Lloyd company of London for an even million dollars, is in the city on an advertising tour and will appear on the streets of Jacksonville today in some of his hair raising stunts.

According to press notices from all parts of the country Mr. Holt,

although listed as a skater, comes nearer to wearing a young bicycle under each foot, each skate weighing 25 pounds and being made of two rubber tired wheels each of which is ten inches in diameter. He has been a trick and fancy skater all of his life, and as his legs are his living he necessarily carries a heavy insurance on his stock in trade.

In various cities he has performed such stunts as riding around on the top edges of high buildings, etc. He claims that it is necessary for him to skate about 100 miles per day to keep in condition, but states that this is not very difficult as he can make about 60 miles per hour when travelling. He has skated across the continent and has also skated to the top of Pike's Peak and has also balanced himself on a dangerous rock on the top of Lookout mountain. He will perform various feats on the streets today clad in his usual clown suit.

## WHITE HALL PICNIC IS LARGELY ATTENDED

Annual Picnic of Greene County Farm Bureau Held at Gregory Park is Successful Affair—Peoria Man Made Address.

White Hall, Aug. 21.—The sixth annual picnic of the Greene County Farm Bureau scored by far its greatest success last Saturday at Gregory Park, White Hall, at which was assembled some 2,500 people. It was indicative of the growing interest among agriculturists in collective effort in the matter of restoring farming operations to its rightful place. The day was ideal for an outdoor gathering, and as remarked by D. H. Wells, "it beats me how you farmers can have such a fine day for a picnic and not have a good day for threshing."

The picnic opened the chautauqua season, and all the accommodations of the chautauqua were at the service of the Farm Bureau, making a most ideal arrangement and location. This has come to be such a regular thing that by next year it is thought that the regular chautauqua program will carry an announcement and program of the Farm Bureau picnic, always held on the day prior to the opening day of the White Hall chautauqua.

The White Hall, K. of P. band played throughout the day, which organization will also remain on the grounds throughout the chautauqua season. The 800 pounds of fish provided for the free fish fry was quite sufficient to take care of those who arrived before noon, but the supply did not last long with the

arrivals coming soon after the noon hour. It is estimated that there were 2,500 people on the ground, and that 1,500 people heard the afternoon program, which included Indian selections in appropriate costume by Mrs. Mabel Pearce Meisenbach of St. Louis, accompanied on piano by her sister, Mrs. Laura Pritchett, and on flute by Dr. W. T. Jones. The feature was preceded by a talk by D. H. Wells, superintendent of the White Hall schools, in the interest of Indian music voicing his great pride in the action of the Farm Bureau in manifesting an interest in the return of this class of music and Indian customs, so increasingly admired and desired in educational circles. His remarks placed the audience in the proper frame of mind to give close attention to the artistic renditions, and the innovation scored a great triumph.

The sessions were presided over by L. R. Lee, president of the Greene County Farm Bureau, and he very fittingly introduced Sam Crabtree, of Peoria, as the speaker of the day. Mr. Crabtree made good as a live wire, and he dealt with the farming situation in relation to the economic situation in general, showing that the city has become topheavy, and that the rural situation is little more than in ruinous competition with the city. He counseled an exchange of ideas between farmers and the city interests as represented by chamber of commerce. He predicted that the tendency of young people to move from the country into the city will expend itself in a few years, and that the future of the farming interests is more than encouraging. Mr.

Crabtree's address was full of practical ideas and suggestions that has come to be a source of studied comment.

A forenoon business session was devoted to routine business, including the allowing of bills, and there was a concert by the White Hall K. of P. band and vocal selections by Mrs. Meisenbach.

### SOME POSTAGE STAMP FACTS

A few months back, when our new set of postage stamps came out, the press gave out the report that the portrait of Martha Washington appearing on the four cent brown stamp was the first time a woman's portrait had appeared on a U. S. postage stamp.

How about Martha Washington's portrait on the eight cent purple black of the 1902-02 issue? On the Columbian issue of 1893, the large oblong stamps, the portrait of Queen Isabella of Spain appears in eight different denominations and women are shown in the pictures on five other stamps of the same set.

In last Thursday's Journal it is stated that the new two cent Harding stamp soon to be issued will be our first black stamp. Our first black postage stamp was the 12 cent of the 1851-56 issue—72 years ago.

Counting the gridded stamps of 1867, we'll have, with the Harding stamp, 29 black postage stamps. We already have 29 black department stamps, 25 black revenue stamps and 12 black envelope and wrapper stamps, not counting the different colors of envelopes.

That makes 95 black U. S. stamps including the Harding stamp. If the A. P. meant the first black stamp in solid color, it would still be wrong, for our envelope and wrapper stamps are in solid color. We will also have a new 8c, 16c, and 24c airplane stamp this month, the 16c probably being black.

### DECREASED CONSTRUCTION IN CHICAGO AND STATE

July building contracts in Chicago, according to F. W. Dodge Corporation, amounted to \$13,678,000; in the state of Illinois (including Chicago) \$26,196,900. Compared with June, Chicago showed a drop of 41 percent; Illinois dropped 38 percent; compared with July of last year, the city and state are still running considerably ahead of last year on the volume of construction started during the first seven months of the year. The city's seven month total is \$145,685,800; its increase over last year 31 percent; the state's seven-month total, \$232,204,300, its increase, 35 percent.

Chicago's July record included \$7,076,800, or 52 percent for residential buildings; \$3,030,000 or 22 percent for social and recreational projects; \$1,577,000, or 12 percent for business buildings and \$1,244,000, or 9 percent for industrial plants.

The July record for the entire state included: \$11,047,800, or 42 percent for residential buildings; \$4,091,700, or 16 percent for public works and utilities; \$3,312,000 or 13 percent for social and recreational projects; business buildings: \$1,816,500, of 7 percent, for educational buildings; and \$1,741,000, or 7 percent, for industrial plants.

Mrs. Jesse Alexander and children of Ada, Minnesota, are visiting at the home of Mr. and Mrs. R. F. Alexander on North West street.

## PIRATES AGAIN TRIM NEW YORK GIANTS

NEW YORK, Aug. 21.—Pittsburgh made it two out of three from New York here today winning their last game of the season on the Polo Grounds 9 to 5. The defeat coupled with Cincinnati's victory over Philadelphia reduced New York's lead in the National League to two and a half games. Manager McGraw of the Giants changed about his lineup before the game, but the Pirates got off to a strong start driving out five runs off Watson in the first inning.

## CINCINNATI MAKES IT THREE STRAIGHT

PHILADELPHIA, Aug. 21.—Cincinnati made it three in a row over Philadelphia today pounding two local twirlers for a 7 to 5 victory. As a result of Pittsburgh's win over New York the Reds are but three and a half games from first place.

## FOREIGNERS REMAIN IN TENNIS DOUBLES

Win Matches in Tuesday's Play—Wind Plays Havoc With Work of Contestants.

BROOKLYN, Mass., Aug. 31.—A strong foreign contingent remained in the running for honors in the national lawn tennis doubles tournament as the second round of play was concluded at Chestnut Hill courts of the Longwood Cricket Club this evening.

The two Australian Davis cup teams survived as did the teams in which the Spanish Davis cup star Manuel Alonzo and South African, Brian I. G. Norton, are competing. The French Davis cup doubles team, beaten here last week by the Australians was eliminated today after a hard struggle.

It was the Spaniard Alonzo who provided many of the thrills of the match which attracted most interest today when the team of Vincent Richards, Yonkers, N. Y., who today was chosen as a member of the Davis American cup team paired with Deane Mather.

New York was defeated by the Spaniard and a Wilkie F. Johnson, Philadelphia.

The Australian veterans, James O. L. Anderson and John B. Hawkes, won in straight sets over their fellow Britons, L. Dean of India and F. R. Leighton-Crawford, London, 6-2, 6-4, 6-4.

They continued to play in good form but tomorrow will be up against the sternest of opposition when they meet William M. Johnston and Clarence J. Griffin of San Francisco.

The pony team of the Australian squad, Ian D. McInnis and W. E. Schlesinger, dropped two sets to the Western champions, Walter Westbrook, Detroit and John H. W. Inniss, New York, after settling down to prove the worth of the Australian system of doubles play and smashed out a win.

The scores were 3-6, 4-6, 8-6, 6-3, 6-3, the only five set match of the day.

Tomorrow the victors will meet Alonzo and Johnson in the third round.

William T. Tilden, II, paired with Norton, played better today than yesterday and encountered less difficulty in advancing.

Their victory today was at the expense of the scratch team of Pierre Hirsch, French Davis cup spare and Lawrence Brown of Boston by a score of 7-5, 6-2, 6-1.

Tomorrow Tilden and Norton will meet the Harvard-Yale combination of W. W. Inniss and Arthur Old A. Jones of Providence, last year's junior champions. The collegians disposed of the French Davis cup team of Rene Lacoste and Jacques Brugnon in a hard fought four set match 10-8, 6-4, 5-7, 11-9.

The Jones-Ingraham combination which has been in competition for ten years although still in college, worked smoothly always.

The match which attracted most attention was that between Alonzo and Johnson and Richards and Mather. It was bitterly contested thruout with the outcome always in doubt.

The high winds interfered with the Philadelphia super-lobbying game but he changed his tactics and revealed a splendid volleying game. His foot work and uncanny anticipation of opponents shots resulted in numerous counters for his team.

The wind played havoc in the match between R. Norris Williams of Bryn Mawr, Pa., new captain of the Davis Cup team and Watson M. Washburn, New York, against Harvey Snodgrass and Wallace J. Bates, the California stars. The former Davis Cup team won without great difficulty 6-2, 6-2, 6-2.

The Boston combination of George P. Gardner, Jr., and Harry C. Johnson had little difficulty in eliminating the South Atlantic companions Clarence M. Charest and Lieutenant Colonel Walt Johnson, Washington, D. C., in straight sets 6-2, 6-2, 6-4.

## ARNOLD CRANDALL SOLD TO MILWAUKEE

DANVILLE, Ill., Aug. 21.—Arnold Crandall, southpaw hurler of the Vets was sold to Milwaukee today on a 10 day option trial for a price said to be over \$3,000. He is a brother of the once famous Otis Crandall and was formerly owned by Detroit, being released by that club last spring after being farmed to Evansville. He reports to Milwaukee tomorrow leaving Danville with but three pitchers with which to finish the season.

## SAYS FIRPO MUST WIN TO MEET WILLS

New York, Aug. 21. (By the A. P.)—Shortly after Tex Rickard announced today that he had signed Luis Angel Firpo to fight Harry Williams, negro heavy fight, in Argentina next April, Paddy Mullins, Wills' manager declared that "he would never think" of signing up with the South American unless the latter took the title from Dempsey on Sept. 14 at the Polo Grounds.

## RAIN STOPS GRAND CIRCUIT RACES TUESDAY

NORTH RANDALL, Cleveland Ohio, Aug. 21.—(By The Associated Press)—Rain which had fallen lightly all afternoon came down in torrents after the finish of the 2-14 trot and caused a postponement until tomorrow of the fourth and deciding heat of the 2:08 class pacing, the Forest City, \$3,000 purse, the feature of today's Grand Circuit card here.

The purse developed into a split heat affair when Buddy Mac the Cleveland owned colt took the third heat after finishing eighth and seventh respectively in the first two miles.

Hal Bee, the favorite, won the first heat easily but could not get up to beat Wrack in the second and lost by a scant neck. He also was nosed out by Buddy Mac and Wrack in the third mile.

Ethel Forbes caused another upset by winning the 2:20 trot from Ammunition and Tramp Cate in a second split heat affair.

Rose Scott, Tom Murphy's black mare was the only winning favorite of the day taking the 2:06 trot in straight heats. It was her second victory in her only starts of the season and was Murphy's twenty fifth winning mount.

Dissatisfied with the way Tramp Cate trotted in the second mile when he finished third in five seconds slower time than was hung up when he won the first heat, the judges replaced Driver Marvin Thornton with Vic Fleming but this made no change in the result of the race as Tramp Cate could not do better than fourth in the third heat and was a poor third in the race off.

Summaries:  
2:20 Class Trotting, Purse \$1,200. (Second Division).  
Ethel Forbes, won; Ammunition, second; Tramp Cate, third; Miss Liberty Direct, fourth.

## RAIN STOPS TRIAL FLIGHT OF BOMBER

DAYTON, Ohio, Aug. 21.—Rain late today interfered with the scheduled premier flight of the world's largest airplane the Barling bomber which was to have hopped off at Wilbur Wright Field here at 6 o'clock this evening.

Lloyd Walker of Augusta is visiting at the home of his mother, Mrs. Edward Halley on East Morton avenue.

## DALLAS SHOOTER WINS AMATEUR TITLE

SOUTH SHORE COUNTRY CLUB, Chicago, Aug. 21.—Phil R. Miller, Dallas, Texas, trap-shooter got 181 of 200 targets to win the amateur doubles championship of North America here today at the South Shore Country Club in the second day of Grand American handicap shooting. Miller last season capped the all-around championship at the Grand American handicap.

The shooting opened in the morning under ideal conditions and the winner led the field with a 96 of the first 50 pairs but a high wind and rain hampered the nimrod specialists at the second hundred making good scores impossible.

Walter G. Warren, Chicago today won the Lake Michigan introductory event when he defeated William Lambert of Oklahoma City in the shootoff of the day. Warren got 24 out of 25 and Lambert grabbed 23 out of 25 after the two had hit 198 out of 200 yesterday.

Little Jimmy Bonner, New York City youth who for three years has tried to win the junior event for shooters under 18 lost to the younger world in the high wind smashed 88 out of 100 to win the amateur title of North America.

In taking the event the steady little New Yorker upset the dope in the minds of some experts for E. M. Prince, Jr., of Birmingham, Ala., was the favorite. Prince got hold of 83 out of 100 targets while A. M. Lemback of Jefferson, Ohio, came into prominence with an 86 for second honors.

C. Anderson of New London, Iowa got 74 while two Inglesides, lads, R. Stanton and D. Graham, grabbed fifth and sixth places, in the order named.

The professional doubles race for the North American championship saw Ben Meents of Ashkum, Ill., take the top honors with a score of 170.

Amateur scores bettered those made by the trade representatives in the shooting today.

In the Amateur doubles race some classy puffing of the targets was done by William Lambert of Oklahoma City and C. A. Gunning of Long Mont, Colo., both getting 179 out of 200.

Frank Hughes of Morbidge, S. D., came to the front again with a 178 to tie Mark Arlie, Champaign Ill., while R. A. King who has taken this title for the past two years got a 173 to lead the Portland, Oregon, marksman, F. M. Troch, who got a 172.

## HEALTH CHIEF MAKES PLEA FOR CHILDREN

Dr. Rawlings Tells How Seriously Physical Defects and Disease Interfere With School Work.

Springfield, Ill., — Declaring that physical defects and contagious diseases exert a profoundly serious influence over the well-being of children to an extent scarcely dreamed of by the popular mind and pointing out that the school room is at once a distinct physical strain and a source of contagion to the rising generation, Dr. I. D. Rawlings, state director of public health, issued yesterday an urgent appeal for a complete physical examination of children who are about to enter school, and especially for those who will go to school this fall for the first time. A thoroughgoing examination by a competent physician will have the double effect of disclosing serious defects and of bringing to light contagious diseases that may be present, said the director, and thus an opportunity will be presented to take such remedial measures as will benefit the child individually and protect others against possible infection. "School days are notoriously closely associated with a high prevalence of common childhood diseases and not without good reason," ran the director's statement. "Recognition of this fact is what gave birth to the idea of closing schools during epidemics but the closing of schools after an epidemic is in fact a swing in the other direction. It is like calling out the hose wagon after a building is wrapped in flames. The service that counts is that which detects the first case of contagion and isolates it from other people. A complete

physical examination for every child just before he goes to school will have this effect. "Year after year the health officers see the tide of contagion begin to rise with the opening of schools in the fall and continue at 'flood' until the closing of schools in the spring marks a return to ebb. A vast amount of this great storm of sickness from which no community in the state escapes and which reaches into hundreds of thousands of cases annually in Illinois could be positively prevented if every school child were taken to a physician just before the beginning of school and examined for signs of contagion. It is sick children who take diseases to school and not the school which keeps in store a course of diseases for children.

"Physical defects are a severe handicap to children who carry them. Poor hearing, faulty vision and decayed teeth are defective conditions found in great numbers among children and these conditions frequently retard mental and physical progress to a marked degree. Diseased tonsils and adenoids are also rather common and ought to be removed for the sake of health.

"Freedom to grow and to learn ought to be the birthright and the privilege of every child born on earth but even in Illinois there are thousands of children who enjoy no such right or privilege. Special surveys, examinations at baby conferences, examinations of school children and reports from nursing associations show that more than half of the school population is in active need of medical or dental service or both. The fact that over half of the youths who apply for citizen's training camps are turned down because they are not physically fit, shows that the individuals are carrying their handicaps on into adult life.

"The least that parents can do, therefore, is to give the children the advantage of a pre-school examination which means—give the children a chance."

### Tolstoy Hopeful for Russia's Future

"Europe is in a chaotic state, another war is coming soon, America must keep out and keep her hands clean, she must not become rich on the bloodshed of men" was the message of Count Tolstoy, son of the great Russian philosopher Leo Tolstoy, in an interview here. He continued, "If America had not furnished ammunition and supplies to the warring nations the last great conflict would have been much less terrible and millions of young men would be living today.

"War is terrible, the most terrible thing known to man, it is naught but organized murder. Such a thing may be better expected from savages; but men who profess to follow Christ should not be the ones to break his laws to the greatest extent. I believe in non resistance. If a man should strike you on one cheek, turn the other to him. That and only that is they way to avoid war.

### Education

"The year before the revolution in Russia the Duma passed the compulsory education law. If the revolution had not come all young Russians would be educated today. As it is the Soviets are trying to educate them but are unable, owing to the disorganized state into which they have plunged the country. Their appropriation for education is but one-tenth of the sum appropriated by the Czarist government for the same purpose. They are greatly hampered by lack of material aids. There are no pencils, no books, no paper, in Russia. Last winter the students of Moscow went to school in furcoats because there was no fuel. The teachers receive so little pay that they cannot give the time to teach as they should. Everything is chaos.

### Communism

"Communism has been given a fair trial in Russia and it has been found wanting. After the revolution all property was nationalized. Now 85 per cent of it is back in private control. The government retains control of the largest industries only.

The agricultural land has been divided among communes, the basis of the Russian system. Each commune consists of 30 persons and they own everything in common. My sister is the head of one of those communes, located on our families' confiscated property.

### The Future

"I have great hopes for Russia. She will come out of her madness and will take her place with the other great nations. Wounds heal. If you cut your finger it will heal after a time. It is so with my country. It has received grievous wounds, but it is a nation of great vitality and resources.

"It will eventually become a liberal republic, going thru evolutionary stages as the French did in their transition from an autocracy to a democracy.

"Russia may have kings two or three times before she settles down to popular government but in the end she will reach that goal.

When asked about the lot of exiled Russian noblemen the Count replied, "I live in a four room bungalow on a five acre farm in Connecticut. I am just as happy as when my farm included thousands of acres and my house had 36 rooms."

## COOLIDGE LAUDS IDEALS OF K. C.

In Every Sense a Patriotic Order Says President in Address.

Montreal, Que.—A message from President Calvin Coolidge hailing the Knights of Columbus as a "patriotic order steadfastly devoted to American principles and ideals" was read at the 41st international convention of that organization, in session here.

In the message, President Coolidge said: "The Knights of Columbus is in every sense a patriotic order. You have established great war charities, you have helped to fill the national treasury with your contributions to the various various liberty loans and you have sent your dearest and best to bear the heat and brunt of the battle.

"Your order has ever shown its steadfast devotion to American principles and American ideals. You are Knights of Columbus, a name of great significance, representing not only a great discoverer but the eternal principle of all discovery and progress. When all the world doubted, when his own followers sought to turn back, he sailed on, daring to follow the truth. There is no finer knighthood.

"In it your noble order stands

resisting all evil council supporting every patriotic cause, following the eternal principle that the truth shall make you free."
